Professional Summary

Experienced Java Backend Developer with 4+ years of expertise designing, developing, and maintaining scalable web applications and APIs. Proficient in Spring Boot, Hibernate, RESTful services, microservices architecture, and database management. Strong problemsolving skills with a passion for clean code and continuous learning.

Technical Skills

- Languages: Java, SQL, JavaScript
- Frameworks: Spring Boot, Spring MVC, Hibernate, JPA
- Databases: MySQL, PostgreSQL, MongoDB
- Tools: Maven, Gradle, Git, Docker, Jenkins
- Web Services: REST API, SOAP
- Cloud: AWS (EC2, S3), Azure (optional)
- Others: Microservices, Agile/Scrum, Unit Testing (JUnit, Mockito), CI/CD pipelines

Professional Experience

Java Backend Developer

XYZ Tech Solutions — City, State *June 2021 – Present*

- Developed and maintained RESTful APIs using Spring Boot, improving response time by 20%.
- Designed and implemented microservices to handle user authentication, order processing, and payment workflows.
- Integrated third-party APIs and internal services for seamless data exchange.
- Optimized SQL queries and database schema design, reducing query execution time by 30%.
- Collaborated with frontend developers and QA to deliver high-quality software on Agile sprints.
- Implemented unit and integration tests using JUnit and Mockito, achieving 85% test coverage.
- Participated in code reviews and mentoring junior developers.

Junior Java Developer

ABC Software Corp — City, State *Jan 2019 – May 2021*

- Assisted in building backend modules for a customer management system using Spring MVC and Hibernate.
- Created and maintained MySQL database schemas and optimized data retrieval processes.
- Supported deployment automation with Jenkins and Docker containers.
- Fixed bugs and performed code refactoring to improve application stability and maintainability.

Education

Bachelor of Science in Computer Science University of Tech — City, State Graduated: 2018

Certifications

- Oracle Certified Professional, Java SE 11 Developer
- AWS Certified Solutions Architect Associate (optional)
- Scrum Master Certified (optional)

Projects (optional but recommended)

Task Management System

- Developed a Spring Boot backend supporting user roles, task assignment, and notification features.
- Used JWT for secure authentication and authorization.

E-commerce API

- Built scalable RESTful APIs for product catalog, cart management, and order processing.
- Integrated payment gateway API for checkout process.
